

DIALOGUE / EDUCATION / ACTION CROSS-BORDER INTERNATIONAL STUDENT CONFERENCE

CISC 2022
DEA

May 19-20, 2022

THE CROSS-BORDER FACULTY invites you to participate in the “**DIALOGUE / EDUCATION / ACTION - Cross-Border International Student Conference 2022 (CISC-DEA 2022)**”. CISC-DEA 2022 will take place from 19 - 20 May 2022 in a hybrid onsite/online (Microsoft Teams) format and will include plenary presentations and live poster sessions. Depending on the current context, the whole conference may be moved online.

Unlike the Student Scientific Communications Session organised annually by the Cross-Border Faculty, CISC-DEA 2022 is organised jointly with students for students, having as objectives:

- strengthening the community of Cross-Border Faculty students;
- creating opportunities for communication, getting to know each other, exchanging experiences at the international level;
- promoting leadership skills in the students involved in the organisation of the conference;
- involving students in the process of scientific research and academic publication.

We warmly invite you to attend the conference, present your ideas and scientific interests, and enjoy lectures and group conversations from wherever you are! Students can participate in CISC-DEA 2022 with oral/poster presentations (maximum two) in Romanian or English or French (maximum 10 minutes + 5 minutes of discussion). The CISC-DEA 2022 participation form (in Romanian or English) is [Here](#). Dear students of the bachelor's and master's programmes, you will compete for the prizes offered for the best scientific papers presented! Papers written in Romanian, English or French will be published in the *Cross-Border Student Life Magazine*. The requirements for submissions of full papers are described [Here](#).

Throughout the conference, there will be a team ready to help you, so attendees will have the opportunity to hear about your amazing ideas and interests!

PAPERS EVALUATION

For the evaluation of the papers, the scientific content, the quality of the work presented (topicality, originality, quality of technical information and scientific results, documentation, personal approach, practical implementation) and the way of presenting the results (correctness and coherence of expression, specialist language, time frame) will be taken into account. Each member of the committee will mark each paper from 1 to 10. The final mark is the arithmetic mean of all the marks awarded by the members of the committee.

Representatives of the socio-economic, cultural and academic environment may be invited to participate in the work of the sections and may be part of the evaluation committees and/or award special prizes to students who produce works of particular interest to the field they represent.

Depending on the final marks obtained, the first, second and third cash prizes will be awarded for the top three best entries in each section. Certificates of participation will be awarded to all participants.

The section chair will draw up the evaluation grid based on the general criteria - scientific content and quality of the work presented (topicality of the subject, originality, quality of technical information and scientific results, documentation, personal approach, practical implementation), the way the results are presented (accuracy and coherence of expression, specialist language, time frame), to which he/she may add criteria specific to the area of research. The Chair will send the evaluation grid to the committee members (no later than 15 May 2022), collect the evaluation grids immediately after the end of the session, and draw up the ranking list based on them. The awards document will be signed by the Chair.
